Introduction

The Pan African University (PAU) is the culmination of continental initiatives of the Commission of the African Union to revitalize higher education and research in Africa. It is a project that will exemplify excellence, enhance the attractiveness and global competitiveness of African higher education and research and establish the African University at the core of Africa's development. The PAU will greatly boost the population and retention of high-level human resources and quality knowledge outputs and be able to attract the best intellectual capacity from all over the world.

It is noteworthy that this momentous project is being launched as African Union (AU) undertakes the modern evaluation of the Second Decade of Education for Africa. Clearly, Africa has awoken to the fact that social and economic development is not possible without substantive investment in a robust higher education and research.

2.

The Pan African University

2.1 Vision

The strategic vision of the PAU is to develop institutions of excellence in science, technology, innovation, social sciences and governance, which would constitute the bedrock for an African pool of higher education and research. This would usher in a new generation of leaders properly trained to take the best advantage of African human and material resources, imbued with a common vision of a peaceful, prosperous and integrated Africa.

2.2 Mission and Scope

To realize the strategic vision, six missions have been assigned to the PAU:

1. Develop continental-wide and world-class graduate and post-graduate programmes in science, technology, innovation, human and social sciences;
 2. Stimulate collaborative, internationally competitive, cutting-edge fundamental and development oriented research, in areas having a direct bearing on the technical, economic and social development of Africa;
 3. Enhance the mobility of students, lecturers, researchers and administrative staff between African universities to improve on teaching, leadership, and collaborative research;
 4. Contribute to the capacity building of present and future African Union stakeholders;
 5. Enhance the attractiveness of African higher education and research institutions for effective development and retention of young African talent, while attracting the best intellectual capital from across the globe, including the African Diaspora;
 6. Invigorate dynamic and productive partnership with public and private sectors.
